

Triple Early Childhood Workshop

When: November 19, 2022

9:00 am – 4:00 pm

Where: Charlie Elliott Wildlife Center
543 Elliott Trail, Mansfield, GA 30055

Cost: \$65.00

Includes workshop materials, activity guides, and lunch.

Join Projects WET, WILD, and Learning Tree (PLT) to explore three early childhood curricula targeting ages 3-9.

Receive three curriculum guides and instruction on incorporating 49 classroom-tested activities and lesson plans into the classroom or learning environment.

AGENCIES

Growing Up
WILD

Growing Up WILD: Exploring Nature with Young Children builds on children's sense of wonder about nature and invites them to explore wildlife and the world around them.

Project WET's *Getting Little Feet Wet* contains interactive, hands-on activities for young learners to explore different aspects of water—from water properties to water sounds.

PLT's *Trees & Me: Activities for Exploring Nature with Young Children* integrates nature-based exploration, art, literature, math, music and movement, and outdoor play into activities. It encourages children to explore, discover, and communicate in expressive ways.
