

ENVIRONMENTAL EDUCATION PROFESSIONAL DEVELOPMENT

PROJECT WET PROJECT WILD PROJECT LEARNING TREE

NOVEMBER 20-21, 2019
8:00AM - 5:00PM DAILY
FORSTON 4-H CENTER
HAMPTON, GEORGIA

REGISTER ONLINE AT: TINYURL.COM/FORTSON2019

Projects WET, WILD, and LEARNING TREE are research-based and field-tested environmental education curricula designed for use by formal and informal educators. All three programs are interdisciplinary in nature and support Georgia school standards in science, agriculture/natural resources, math, social studies, language arts, and more. After successful completion of this workshop, individuals will be certified educators and will receive guide books which are full of lessons, resources, and activities. Participants will also enjoy the opportunity to network with other educators and professionals while engaging in hands-on learning.
